

Helpful Hints To Make Using CRSINGLES Web-Site Fun, Fast, Easy

We want this calendar to be informative and helpful as well as easy and fast to find what you are looking for. Scrolling around on a website can be frustrating and time consuming so hopefully we have made this web-site user friendly, fast and easy to find what you are looking for.

At the top you'll find links to the pages you want to see such as Home, Calendar, Contact Us and more. Click on any of them and it will take you to that page. These same links are pretty much on each page on the web-site. When something is underlined, it usually will take you to a page with more information. On each page you will see Back To Top and by clicking on it, it will take you to the top of the page no matter where you are on that page. So for example on the Calendar you will see close to the top each of the Months listed from Jan to Dec. Click on any month and it will take you directly to that month and then by clicking on Back To Top it will take you back to the top. You don't have to scroll up and down very much. Each page is set up this way which makes getting around the Calendar, Recipes and other pages with a lots of information faster and easier.

Please, if you have any questions, comments or suggestions or need to post something on the site, feel free to contact me.
